

Calipers

SHARS Super High Quality Dial Calipers

Premium Series

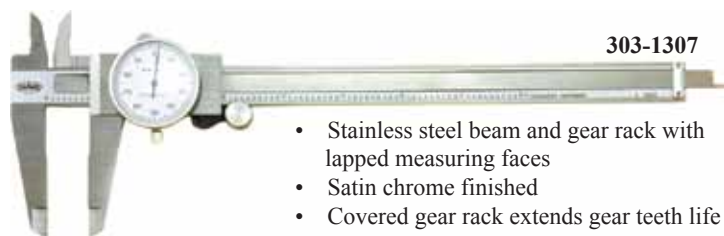

- Meets DIN862 standard and compares to Japan premium brand's caliper
- Advanced shock-proof antibacklash mechanism protect gear train and each caliper is delicately hand-adjusted to achieve balanced silky smooth feel through entire range
- Caliper scale surface is satin chrome finished to prevent glare and microfne graduation read in inches
- Hardened stainless steel beam body and gear rack can endure exhausting usage and still provide accurate reading over the years
- Covered gear rack is mounting on the main body with 4 small screws, unlike many other import caliper where the gear rack is glued onto the body
- Caliper jaw's measuring surface is hardened to 53 HRC
- Adjustable bezel with locking clamp and thumb roller and zero-set screw
- 4 Way measuring functions: inside, outside, depth and step
- Graduation of .001" in one revolution
